Author index

Adolph, D., B.M. Pause, Different time course of emotion regulation towards odors and pictures: Are odors more potent than pictures? **91**, 65
Allen, J.J.B., see Velo, J.R. **91**, 283
Amenedo, E., L. Lorenzo-López, P. Pazo-Álvarez, Response processing during visual search in normal aging: The need for more time to prevent cross talk between spatial attention and manual response selection **91**, 201
Ashley-Koch, A., see Jonassaint, C.R. **91**, 111

Baglioni, C., see Spiegelhalder, K. **91**, 329
Banis, S., M.M. Lorist, Acute noise stress impairs feedback processing **91**, 163
Banks, J.B., see Viena, T.D. **91**, 307
Barbu, I.M., see Viena, T.D. **91**, 307
Baskin-Sommers, A.R., J.J. Curtin, C.L. Larson, D. Stout, K.A. Kiehl, J.P. Newman, Characterizing the anomalous cognition–emotion interactions in externalizing **91**, 48
Berndt, C., J. Strahler, C. Kirschbaum, N. Rohleder, Lower stress system activity and higher peripheral inflammation in competitive ballroom dancers **91**, 357
Blechert, J., see Schmitz, J. **91**, 263
Boehm, S.G., see Saville, C.W.N. **91**, 275
Bradley, M.M., see Chan, P.-Y.S. **91**, 185
Bradley, M.M., see Wangelin, B.C. **91**, 103

Carp, J., see Kuo, P.X. **91**, 302
Carter, C.S., see Gouin, J.-P. **91**, 270
Cellini, N., see de Zambotti, M. **91**, 22
Chan, P.-Y.S., A. von Leupoldt, M.M. Bradley, P.J. Lang, P.W. Davenport, The effect of anxiety on respiratory sensory gating measured by respiratory-related evoked potentials **91**, 185
Chen, K.-H., see Yen, N.-S. **91**, 232
Chernega, N.J., see Lambiase, M.J. **91**, 42
Chou, I.-C., see Yen, N.-S. **91**, 232
Chung, H.-K., see Yen, N.-S. **91**, 232
Cluydts, R., see Wuyts, J. **91**, 383
Covassin, N., see de Zambotti, M. **91**, 22
Curtin, J.J., see Baskin-Sommers, A.R. **91**, 48

Dahl, R.E., see Hasler, B.P. **91**, 334
Daley, D., see Saville, C.W.N. **91**, 275
Dan, O., S. Raz, Adult attachment and emotional processing biases: An Event-Related Potentials (ERPs) study **91**, 212
Davenport, P.W., see Chan, P.-Y.S. **91**, 185
De Valck, E., see Wuyts, J. **91**, 383
de Zambotti, M., N. Covassin, N. Cellini, M. Sarlo, J. Torre, L. Stegagno, Hemodynamic and autonomic modifications during sleep stages in young hypotensive women **91**, 22
Dorn, J., see Lambiase, M.J. **91**, 42

Ehlis, A.-C., see Ernst, L.H. **91**, 312
Eisenlohr-Moul, T.A., M.T. Fillmore, S.C. Segerstrom, "Pause and plan" includes the liver: Self-regulatory effort slows alcohol metabolism for those low in self-control **91**, 229
Ellison, P.T., see Ziomkiewicz, A. **91**, 376
Ernst, L.H., A. Weidner, A.-C. Ehlis, A.J. Fallgatter, Controlled attention allocation mediates the relation between goal-oriented pursuit and approach–avoidance reactions to negative stimuli **91**, 312
Exadaktylos, V., see Wuyts, J. **91**, 383

Fallgatter, A.J., see Ernst, L.H. **91**, 312
Fedota, J.R., see Fu, S. **91**, 321
Fehér, B., see Weise, A. **91**, 142
Feige, B., see Saville, C.W.N. **91**, 275
Feige, B., see Spiegelhalder, K. **91**, 329
Fillmore, M.T., see Eisenlohr-Moul, T.A. **91**, 229
Flaisch, T., see Schupp, H.T. **91**, 81
Flor, H., see Pohlack, S.T. **91**, 74
Folyi, T., see Weise, A. **91**, 142
Forbes, E.E., see Hasler, B.P. **91**, 334
Forster, B., see Gherri, E. **91**, 172
Fox, A.M., see O'Toole, S.A.L. **91**, 221
Frankenberg, H., see Kazén, M. **91**, 28
Freydefont, L., G.H.E. Gendolla, Incentive moderates the impact of implicit anger vs. sadness cues on effort-related cardiac response **91**, 120
Friedman, D., see Nessler, D. **91**, 245
Fu, S., J.R. Fedota, P.M. Greenwood, R. Parasuraman, Attentional load is not a critical factor for eliciting C1 attentional effect – A reply to Rauss, Pourtois, Vuilleumier, and Schwartz **91**, 321

Gendolla, G.H.E., see Freydefont, L. **91**, 120
Gendolla, G.H.E., see Kreibig, S.D. **91**, 365
Gherri, E., B. Forster, The orienting of attention during eye and hand movements: ERP evidence for similar frame of reference but different spatially specific modulations of tactile processing **91**, 172
Goldberg, J.O., see Mathewson, K.J. **91**, 389
Golkar, A., A. Öhman, Fear extinction in humans: Effects of acquisition–extinction delay and masked stimulus presentations **91**, 292
Goodin, B.R., M.T. Smith, N.B. Quinn, C.D. King, L. McGuire, Poor sleep quality and exaggerated salivary cortisol reactivity to the cold pressor task predict greater acute pain severity in a non-clinical sample **91**, 36
Gouin, J.-P., C.S. Carter, H. Pournajafi-Nazarloo, W.B. Malarkey, T.J. Loving, J. Stowell, J.K. Kiecolt-Glaser, Plasma vasopressin and interpersonal functioning **91**, 270
Greenwood, P.M., see Fu, S. **91**, 321
Grewen, K.M., see Kuo, P.X. **91**, 302
Griessenberger, H., K. Hoedlmoser, D.P.J. Heib, J. Lechinger, W. Klimesch, M. Schabus, Consolidation of temporal order in episodic memories **91**, 150
Gross, J.J., see Schmitz, J. **91**, 263

Haex, B., see Wuyts, J. **91**, 383
Hajcak, G., see MacNamara, A. **91**, 349
Hamm, A.O., see Schupp, H.T. **91**, 81

doi:10.1016/S0301-0511(12)00216-5
